

Activate Employee Superpower: Counting Speed

One of the most tedious tasks retail employees face is the counting of inventory and received goods. It's time to shift this task to Scandit Smart Data Capture technology and activate their counting speed superpower.

See where you can put a smile on your employee's faces, provide 10x faster counting speed and guaranteed data accuracy across your business with MatrixScan Count.

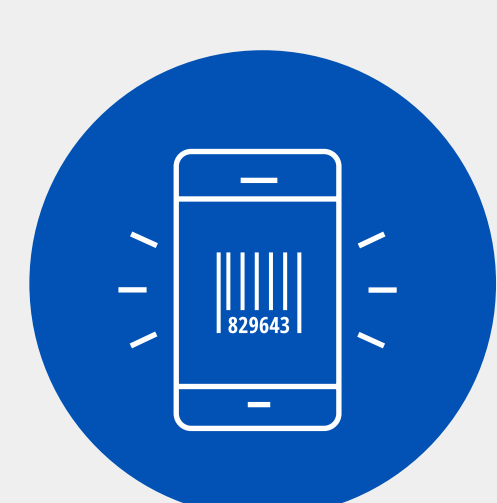

How MatrixScan Count Works

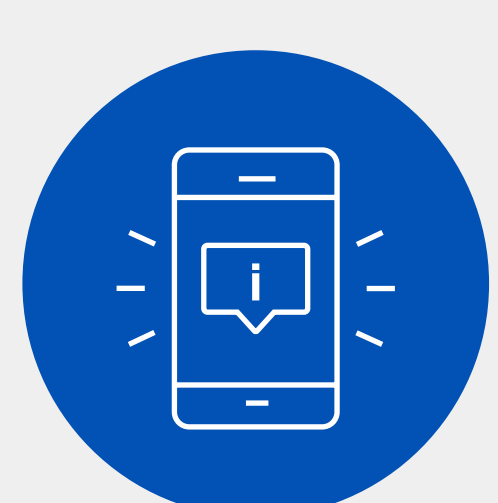

Power Up

Using the Scandit Smart Data Capture SDK, integrate MatrixScan Count into native apps on smart devices that are used for store operations tasks.

Activate Counting Speed

Point the device camera at the item barcodes to be counted, tap to automatically count all barcodes in the view, then move to the next batch.

Get Accurate

Receive actionable alerts to ensure a barcode or item is never missed.

Activate Enhanced Vision

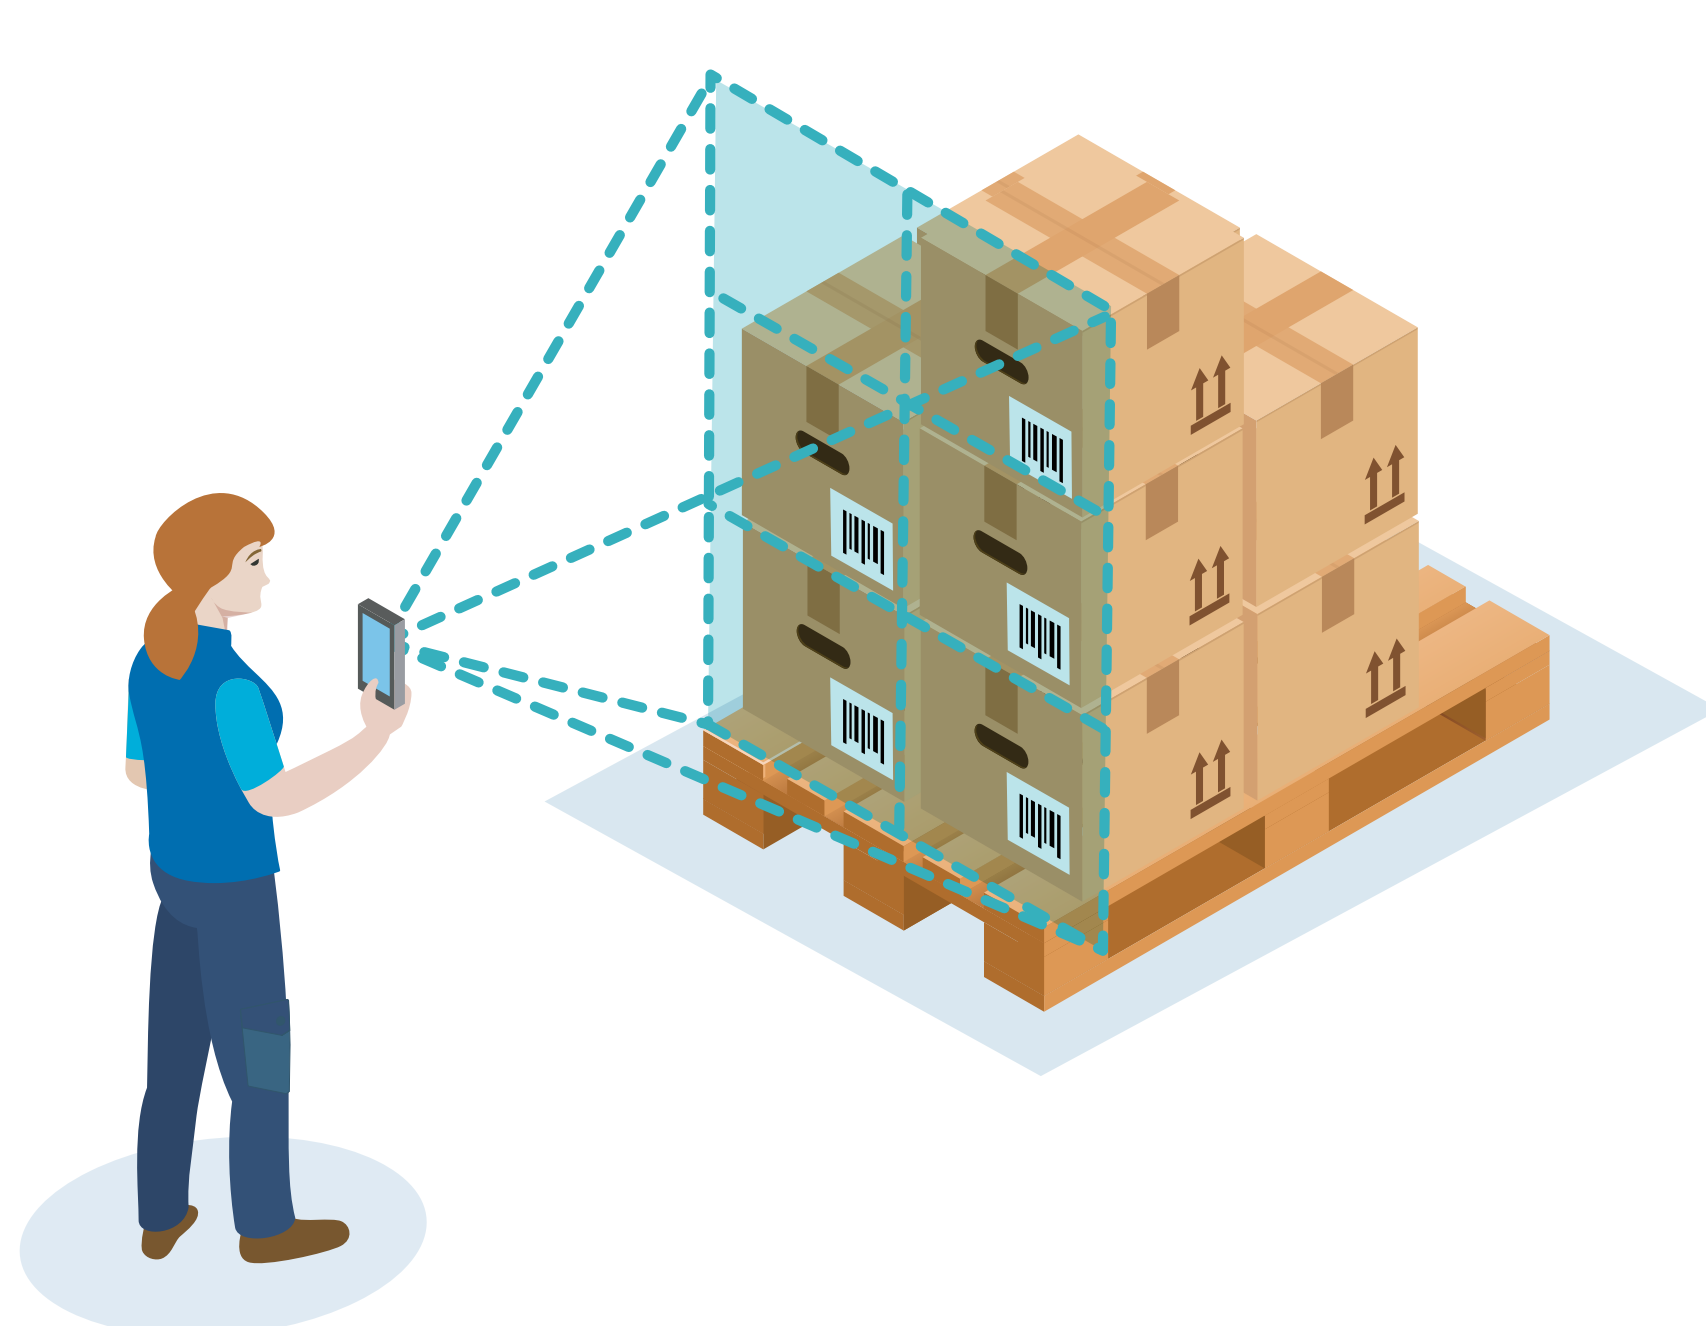

Connect to inventory systems to see and update stock levels in real-time and identify any discrepancies.

Where Can It Be Used?

Look out for smiling employees with a smart device in hand in these areas:

Receiving Goods

Race through receiving goods and confirm the quantity by scanning the barcodes on boxes in a flash. Point and tap to scan all barcodes simultaneously to process goods with super speed and no fuss.

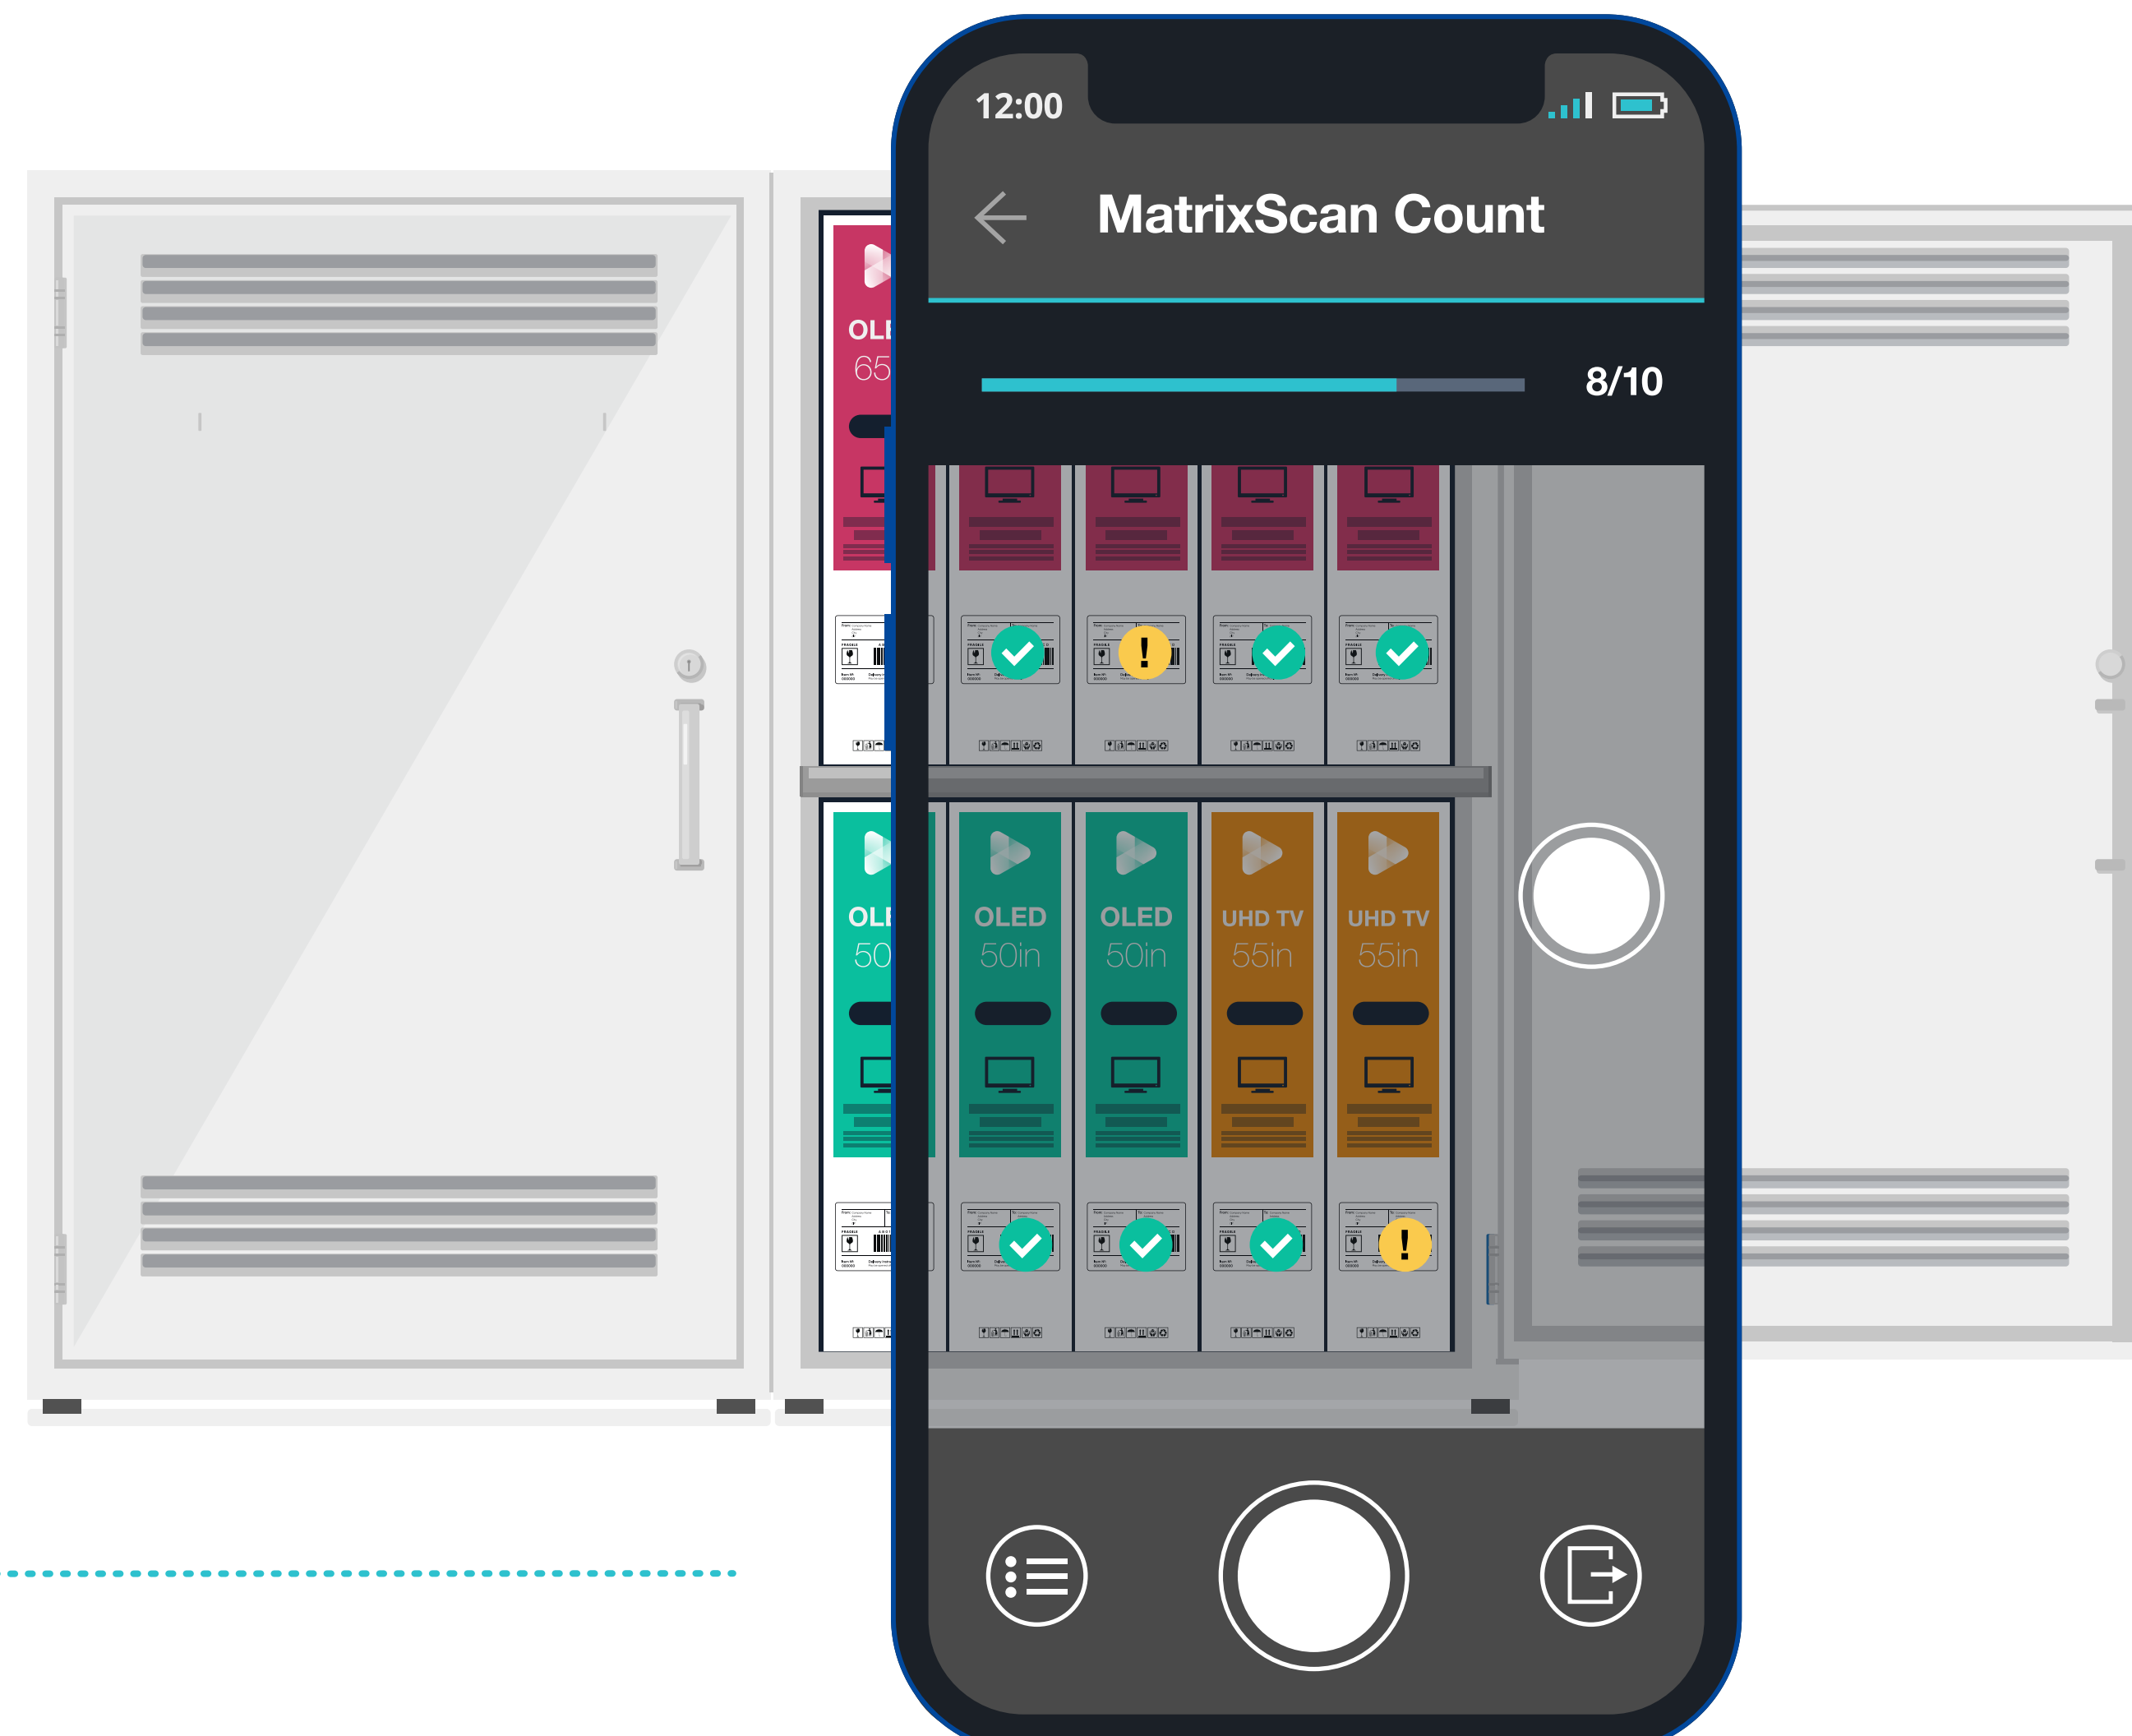

Spot Checking

Be certain that you receive exactly what you order by quickly and accurately carrying out spot checks of goods when they arrive in store.

Cycle Counts and Stock Taking

No head scratching here. Whether you are cycle counting or stock taking, instantly count small samples of inventory to ensure accuracy across the business. Prevent stockouts and overstocking so supply can meet demand effectively.

Wonderful Workflows

MatrixScan Count has an intuitive user experience. It helps employees decide what to do next in several different scenarios relating to missed scans or inventory errors. Feedback is provided directly on the device screen, so an item is never missed.

Scandit MatrixScan Count is an out of the box solution that comes pre-configured so retailers can quickly get up and running and start counting faster with guaranteed accuracy.

Ready to Power Up?

Put superpowers in your employees pockets and smiles on their faces with MatrixScan Count. Relieve them from tedious counting tasks, prevent operational issues with clear inventory visibility and ensure data accuracy across your business.

Scandit Smart Data Capture on smart devices provides actionable insights and automates end-to-end processes by capturing barcodes, text, IDs and objects.
